Dear Adam, Bono, Larry and The Edge,
Dear management,

November 2002, after the first screening of the Slane Castle concert on television, several U2 websites had the idea to start a petition for a release of the entire concert on CD and DVD. In a unique campaign the idea was spread all over the world via the internet, a petition portal was set up and the petition text translated into five languages to reach every U2-fan. After 4 months and the broadcast of the TV special in almost every country we have collected nearly 3000 signatures, another 2000 further signatures have been collected at u2star.com.

With this document we would like to hand over the 3000 signatures from the collaboration of u2tour.de, u2achtung.com and u2place.com. u2star.com is still collecting and will hand over their signatures at a later date. On the basis of this huge support from U2-fans all over the world we kindly ask U2 and their management to consider the release of the entire Slane Castle Concert on CD and DVD (see the petition text).

We would like to thank U2-fans worldwide who have signed this petition and special thanks go to the participating websites and those who have supported us by linking to the portal and displaying the petition banner: U2franz.com, U2theendoftheworld.co.uk, @U2, U2Log.com, U2Swisshome.com, U2eastlink.com, u2exit.com and John Daly. Thanks again to U2eastlink.com for the Spanish translation!

This petition was made in association with u2tour.de, u2achtung.com and u2place.com. Another petition was made by u2star.com.

U2, liebes Management

zur Zeit wird weltweit das neue Video über das Slane Konzert vom 1.Sept. 2001 ausgestrahlt. Dieses 50 minütige Special beinhaltet 9 phantastische Live-Versionen. In der atemberaubenden Kulisse des Slane-Castle und dieser begeisterten Menschenmasse wird es zu einem besonderen Erlebnis für den TV-Zuseher.

Doch weltweit stellen sich tausende U2-Fans die Frage: *"Warum bekommen wir nicht mehr?" "Warum nicht das ganze Konzert?" "Warum nicht wieder einmal eine Live-CD?" und "Warum wird das Konzert nicht als DVD herausgebracht?"*

Im Gegensatz zu vielen anderen Gruppen hat U2 noch nie(!) ein komplettes Konzert auf Audio-CD und DVD veröffentlicht. Warum nicht? U2 ist die grösste LIVE-Band der Welt, es wird Zeit dies der Öffentlichkeit mit einem beindruckenden Dokument zu beweisen.

Wir bitten U2, das Management, die Plattenfirma, veröffentlicht dieses atemberaubende Konzert von Slane auf einer Audio-CD und auf DVD. Mit meiner Unterschrift und den unten genannten Gründen für einen Release bitten wir darum! Wir U2-Fans haben es uns verdient!

Gründe für einen Release des U2 Slane Konzertes 2001:

U2 hat noch nie ein komplettes Live-Konzert auf Audio-CD veröffentlicht. Auch 'Under a blood red sky' ist ein Zusammenschnitt aus 3 Konzerten.

Selbst beim ZooTV Video aus Sydney fehlt ein Song ('Tryin' to throw your arms around the world') - ein ordentlicher Release auf Audio-CD & DVD fehlt ganz.

Mexico wurde nur für eine Handvoll Fans ausgegeben - auch hier wieder nur die Hälfte des Konzertes. DVD-Release?

Slane wurde von u.a. mit der Unterstützung von SpinCam in hervorragender Qualität aufgezeichnet - das Material ist also vorhanden.

Auch der hervorragende Zusammenschnitt von Boston, welcher auch auf DVD herausgegeben wurde, ist nicht vollständig.

U2, et Management de U2,

La vidéo du concert de Slane Castle est depuis peu diffusée sur les chaînes de télévisions à travers le monde. Ce spectacle de 50 minutes comporte 9 chansons 'lives' fantastiques. De voir les coulisses de Slane Castle et un public enthousiasmé nous a plus qu' enchanté.

Mais face à cette émission les fans de U2 se posent des questions : « Pourquoi n'avons nous pas droit à tout le concert ? Pourquoi le concert n'est sorti ni en CD ni en DVD ? »

Contrairement à un grand nombre d'autres groupes, U2 n'a pas encore sorti de concert complet sur CD ou sur DVD. Pourquoi ? U2 est l'un des meilleurs groupes sur scène et il serait bien que le groupe fasse découvrir au public enfin un concert en intégralité.

Nous demandons à U2 et à son management d'envisager la sortie de ce concert époustouflant de Slane Castle en CD et DVD. Nous, les fans de U2, nous le méritons bien.

Les raisons pour lesquelles nous demandons une commercialisation du concert de Slane Castle :

U2 n'a jamais sorti de concert complet sur CD. 'Under a blood red sky', étant un mix de 3 concerts.

La vidéo 'ZOO TV live from Sydney' est incomplète : il manque une chanson : 'Tryin' to throw your arms around the world.'. Il serait également bien venu de voir ce concert sortir sous forme de CD ou de DVD.

Le concert de Slane Castle a été filmé avec l'équipement de SpinCam : on obtient une très bonne qualité de l'image.

La vidéo 'Elevation : live from Boston' est incomplet.

 Text in english

U2, dear management,

currently the new video of the Slane Castle performance (sept. 1, 2001) is screened worldwide on TV. This 50 minute special contains 9 fantastic live versions. Set in the spectacular atmosphere of Slane Castle and crowned with enthusaistic crowd of fans, it is indeed a very special experience for any TV spectator.

Nevertheless thousands of U2 fans worldwide keep asking the same question: *"Why don` t we get to see more?" "Why not the whole show?" "Why not releasing another Live-CD?" and "Why not releasing the whole concert on DVD?"*

In contrast to a lot of other bands, U2 have so far never(!) released a complete concert on CD or DVD. Why not? U2 are the biggest live band in the world - and its time to prove this to the public with a remarkable document.

We therefore kindly ask U2, the management and the record company to release this breathtaking Slane concert on CD and DVD. With my signature and the above stated reasons I aks for a release. We, U2 fans from all over the world, deserve it!

Reasons for a release of the Slane Castle Concert:

U2 have not yet released one complete live-show on cd. Even "Under a blood red sky" was cut together from 3 different shows

Even the ZooTV video from Sydney lacks one song ('Tryin' to throw your arms around the world') - a decent release on CD or DVD is lacking completely.

Mexico was only released to a handful of fans - and again it was only half the show. And what about a DVD-release?

Slane was recorded in top quality using fantstic equipment (e.g. SpinCams) - the material is existing.

Even the fantstic Boston show, which was released on DVD, is not complete

U2, et Management de U2,

attualmente il nuovo video della performance allo Slane Castle(1° settembre, 2001) è in onda sulle TV di tutto il mondo. Questo special di 50 minuti contiene 9 fantastiche versioni live. Nella spettacolare cornice dello Slane Castle, con un pubblico in delirio, traspare una grandiosa atmosfera, forse mai realizzata prima durante un concerto degli U2. Uno show davvero speciale per qualsiasi spettatore della TV.

Tuttavia migliaia di fans continuano a porsi la stessa domanda: *"Perché non possiamo ottenere qualcosa in più? Perché non l'intero show? Perché non rilasciare un CD live? E soprattutto perché non rilasciare l'intero concerto in DVD?"*

A contrario di tante altre bands, gli U2 non hanno mai rilasciato un concerto completo in CD o DVD. Perché no? Gli U2 sono la più grande band al mondo, ed è giunta l'ora di dimostrarlo al grande pubblico sfruttando questa grande opportunità.

Con le nostre firme, noi fans degli U2 di tutto il mondo, per le ragioni sottoelencate chiediamo gentilmente, agli U2, al loro management ed alla casa discografica di rilasciare questo emozionante show allo Slane Castle, su CD e DVD.

Motivi per la pubblicazione del concerto dello Slane Castle:

Gli U2 non hanno ancora rilasciato un cd live completo. Anche "Under a Blood Red Sky" fu pubblicato unendo 3 differenti concerti.

Anche lo ZOOTV video manca di una canzone per completare il concerto completo. E tutt'oggi non esiste una versione in DVD e CD.

Il cd live dello show di Mexico City fu rilasciato soltanto per pochi fans iscritti a Propaganda, per di più incompleto. E non esiste ancora la versione in DVD

Slane è stato registrato con una qualità sublime, utilizzando un equipaggiamento fantastico(per esempio le Spins Cams).

Anche lo show di Boston, che è stato rilasciato su DVD, è incompleto, e con una setlist stravolta.

Petición en español

U2, estimada dirección,

actualmente el nuevo vídeo de la actuación en Slane Castle (1 sept de 2001) se esta emitiendo por television en todo el mundo. Este especial de 50 minutos contiene 9 fantásticas versiones en directo. Localizado en la espectacular atmósfera de Slane Castle y rematado con una multitud de seguidores entusiasmados, es de veras una experiencia especial para cualquier espectador de televisión.

Sin embargo miles de seguidores de U2 de todo el mundo siguen preguntando la misma cuestión "*¿Por qué no puedo ver más?*" "*¿Por qué no lanzar otro CD en directo?*" y "*¿Por qué no publicar el concierto completo en DVD?*"

En contraste con la mayoría de las otras bandas, U2 nunca ha ido tan lejos publicando un concierto completo en CD o DVD. ¿Por qué no? U2 son la banda en directo más grande del mundo y es momento de demostrárselo al público con un documento memorable.

Por lo tanto pedimos amablemente a U2, a la dirección y a la compañía discografica que publique este impresionante concierto de Slane en CD o DVD. Con mi firma y con las razones antes expuestas pido su publicación. Nosotros, los seguidores de U2 de todo el mundo, nos lo merecemos!

Razones para publicar el concierto de Slane Castle:

U2 nunca ha publicado un concierto completo en CD. "Under a blood red sky" era una mezcla de 3 tomas diferentes.

Incluso el vídeo ZooTV de Sydney carece de una cancion ('Tryin' to throw your arms around the world'). Falta una edición en CD o DVD ganz.

México se publico en CD para los suscriptores de Propaganda. Y una vez más solo es medio concierto. ¿Qué hay acerca de la publicación en DVD?

Slane fue grabado en la más alta calidad utilizando un equipo fantástico (ejemplo SpinCam).

El fantástico concierto de Boston, el cual se editó en DVD, no esta completo.

Ich verstehe wirklich den Grund nicht, warum das Slane Castle Konzert nicht auf Dvd veröffentlicht werden sollte. Gerade auf diesem Konzert kommt die atemberaubende, unglaubliche Stimmung eines U2-Konzertes am Besten rüber. Bei dieser Aufnahme kann man die Magie sogar spüren, wenn man es nur auf dem Bildschirm sieht anstatt es live mitzuerleben. Das alles sieht man z.B. beim Boston-Konzert nicht, was sehr schade ist. Das ist einer der Gründe, warum uns das vollständige Slane-Konzert nicht vorenthalten werden sollte. Also bitte, bitte, bringt das Konzert auf Dvd heraus-das wäre so großartig!

I saw the badly crippled German TV broadcast, but even then the pictures where overwhelming. So go and release Elevation at Slane, and while you're at it, ZooTV and Popmart would be most welcome on DVD, too.

I would also seriously appreciate that the ever incredible Streets light show is fully captured on the DVDs (kind of like the opposite of Boston), something screams "multiangle" here.

U2, dear management,
currently the new video of the Slane Castle performance (sept. 1, 2001) is screened worldwide on TV. This 50 minute special contains 9 fantastic live versions. Set in the spectacular atmosphere of Slane Castle and crowned with enthusiastic crowd of fans, it is indeed a very special experience for any tv spectator.
Nevertheless thousands of U2 fans worldwide keep asking the same question: "Why don't we get to see more?" "Why not the whole show?" "Why not releasing another Live-CD?" and "Why not releasing the whole concert on DVD?"
In contrast to a lot of other bands, U2 have so far never(!) released a complete concert on CD or DVD. Why not? U2 are the biggest live band in the world - and its time to prove this to the public with a remarkable document.
We therefore kindly ask U2, the management and the record company to release this breathtaking Slane concert on CD and DVD. With my signature and the above stated reasons I aks for a release. We, U2 fans form all over the world, deserve it!

MORE DVD LIVE OF U2

21 December 2002 - FRANCE

edel ferrer | edel02-AT-hotmail-DOT-com

currently the new video of the Slane Castle performance (sept. 1, 2001) is screened worldwide on TV. This 50 minute special contains 9 fantastic live versions. Set in the spectacular atmosphere of Slane Castle and crowned with enthusiastic crowd of fans, it is indeed a very special experience for any tv spectator.

Nevertheless thousands of U2 fans worldwide keep asking the same question: "Why don't we get to see more?" "Why not the whole show?" "Why not releasing another Live-CD?" and "Why not releasing the whole concert on DVD?"

In contrast to a lot of other bands, U2 have so far never(!) released a complete concert on CD or DVD. Why not? U2 are the biggest live band in the world - and it's time to prove this to the public with a remarkable document.

We therefore kindly ask U2, the management and the record company to release this breathtaking Slane concert on CD and DVD. With my signature and the above stated reasons I ask for a release. We, U2 fans from all over the world, deserve it!

Reasons for a release of the Slane Castle Concert:

U2 have not yet released one complete live-show on cd. Even "Under a blood red sky" was cut together from 3 different shows

Even the ZooTV video from Sydney lacks one song ('Tryin' to throw your arms around the world') - a decent release on CD or DVD is lacking completely.

Mexico was only released to a handful of fans - and again it was only half the show. And what about a DVD-release?

Slane was recorded in top quality using fantastic equipment (e.g. SpinCams) - the material is existing.

Even the fantastic Boston show, which was released on DVD, is not complete

20 December 2002 - Spain

Man U2 ihr wart so geil in Köln 2001, das erste Konzert, ob das zu übertreffen ist ich weiß es nicht..beweist es mir und allen U2 Fans auf der Welt und bringt dieses Konzert auf Cd und DVD raus....

William A. Mavers (aka Bono's Secret Lovechild) | william-DOT-mavers-AT-ntlworld-DOT-com

For a band that has remained so loyal to their homeland, it is a travesty that U2 has not released a live document of themselves in action on their own home turf. The fans won't see it as being ripped off as it is a valid release and we won't see it as over-saturation/exposure either.

Why should we have to rely on bootleggers who's money goes to Christ knows where...Drugs?, Arms? who really knows. Beat the bootleggers and release Slane across the board, if it eases the conscience you could donate all profits to the people of Omagh or another worthy cause.

You have the Power, we have the will, Together we can make our dreams a reality.

I think U2 should seriously consider released the Slane shows on DVD at least, because of how profound they were. Those shows epitomize U2 and deserve to be enjoyed by fans the world over. Please a DVD and a CD of this concert, it makes almost 20 years that U2 released a live CD, and it only was one. and yes Larissa it's Edge that is playing both keyboards and guitar in this concert on NYD, like the Under a Blood Red Sky, ZOO TV Live from Sydney, and also the PopMart Mexico. By the like always, edge is the piano, keyboard man of the band, did you forget October, Running to stand still. By the way, do you know a time that in NYD edge didn't played piano on it. and you can see on the U2.com, between the events of 2001, the link for Slane and it will available a photo of this concert during NYD and with edge playing Keyboard.

Indeed Victor that was a very good idea, but please to the management and U2, release at least a DVD please! and I have a doubt in NEW YEAR'S DAY is Edge himself that plays the keyboards, like the Red Rocks, ZOO TV videos?

Please make this a DVD with the 19 songs played, and or a Double CD like the best, a double CD with all the whole concert, and a week after a single CD. and about the what Larry said in the end of Where the Streets have no name, i think that was "- Holy. Fucking. Shit "

Please , all the continents wants it so badly, but please the whole concert ! Yes you said a very good true, Youri , this moment of streets is very cool indeed, and i think that what Larry said it was " Let's go. Bloody. Bastards " yes it looks a bit rude , but if it really was this he was just playing or something. and man why did you put the same message two times ? it also has mistakes on the two.

8 December 2002 - LA, USA

Youri Le Daez

Please on DVD and CD, yes you are correct Jo ão Evanildo, they played a unplugged version on sun, and two moments cool, and funn or curious are that in Mysterious Ways , one of Bono's daughter comes to the stage and dances and plays with him, and in Streets who already saw the video must had noticed , that time of the end of song that Edge takes a pass backwards, and the camera goes to him , the time that he holds all the strings of the Stratocaster and makes that sound : tac, tac tac, tac tac together with the drums , and after Bono sings : OooooooH! Oooh! OooooH! , did you get what moment is this , because in this moment that edge does this tac tac sound, larry also has a important participation because he joins with him , he hits in a single drum with the two hands , and he has to hit very hard, very strong and very fast , because of the moment that is a kind of climax of the song , and coz is a very exhausting and exciting moment for Larry , and demands a lot of him , you can see his lips saying , or under his breath something like : " Bloody fucking " or "C'mon bloody shit " or another thing , it's a very cool moment of the concert and if they release this DVD you certainly will enjoy , also because edge always does this sound , but this time he plays with more strong , and very faster.

8 December 2002 - France

8 December 2002 - Canada

João Evanildo P Oliveira

Please all the world want so much , we beg you release all the whole concert in DVD , and if possible a smaller version on CD. and Jonn yes , they played Staring at the sun on the 01 set concert that is what this petition about, if I'm not wrong somebody already put the whole setlist here, if not you can check on the u2.com , and it was a unplugged version, with Bono using the same acoustic guitar that he plays Kite on the Boston DVD , it looks like its a favorite of him , because he plays with it since the ZOO TV tour. With the fact that U2 always plays at least one song in a acoustic version on a concert, if you see the set list it only could be Desire , Angel of Harlem or Sun.

8 December 2002 - Brazil

Jonn Graehys

Yes, Please it's a better concert than sydney, mexico , red rocks , and boston ! Please guys , could you please answer in this concert of setember 01, did U2 played "STARING AT THE SUN" and was it a unplugged , acoustic version or a electric version ?

Ciaran Thompson | CiaranU2-AT-msn-dot-com

I was at U2's slane gig on 1st September 2001, (7th out of 7). By far the greatest ive ever seen. When saw the RTE clip of the gig on TV I turned to my family (as did many others im sure)& screamed "I was there" I tried to explain to my friends & family members what it was like after Q-ing for tickets & q-ing to get past the security checks then waiting in the grounds for 9/10 hours, then to hear "THE BOYS ARE BACK IN TOWN" then "SGT. PEPPERS LONELY HEART CLUB" over the booming PA! Ive never quite seen 85-000 people getting an adrenaline shot like that & I would love to see it again, (at least from the Sgt.PLHC/elevation) intro. What is most annoying for me is the notable absence on the RTE screening as the electric performances of of classics such as "UTEOW" "NYD"(the latter of which isnt even seen on the LIVE IN BOSTON dvd)(even though before the cut to SIAM edge & Adam can be seen squaring up for NYD) (AND Larry's thrashing of the symbols) I'll cut to the chase: This is by far the greatest gig i have ever been to, & I took a few of my fiends with me. I am pleading with anyone of influence within the U2 machine to release this concert on DVD/VHS in its entirety as it was one of the most eagerly anticipated & enjoyable,

memorable,mmm, any other words to express it, Imoments of my life. Honest. Please. Anyone. We`ve given u loadsa dosh: (not that u dont deserve it). Please give us the main one back, to remember, FOREVER.

Thank you

Please release the whole U2 Slane concert(possibly both) on DVD as it would be a great experience for any U2/ music fan to watch and enjoy! The Elevation tour DVD from Boston captured U2 and the new songs inside a sportshall with all it's heat and exitation, but the Slane concert will be an extraordinary example of that U2 can both pack a sportshall, and a great outdoor venue with 80.000 people and still create this close conection with it's audience. It is also a historic event as it is the great "sort of homecoming" for U2.!

So far every live release by U2 in both formats, CD and DVD, has been incomplete and/or distributed on a limited basis:
01. Numerous songs from the 03/06/1981 Paradise Theatre concert in Boston have been released as CD B-sides, but never the entire concert.
02. Under a Blood Red Sky - an album of live songs culled from the 06/05/1983 Red Rocks concert and the 08/20/1983 Rockpalast concert. Again, incomplete. The video, drawn solely from the 06/05/1983 Red Rocks concert, is also incomplete.
03. Rattle and Hum, the CD, is neither a studio album nor a live album. Rattle and Hum, the film, has live tracks culled from a number of sources - McNichols Arena in Denver, the Save the Yuppies concert, and the concerts at ASU's Sun Devil Stadium. Again, no complete live concert.
04. A number of songs from the 07/18/1987 Rotterdam concert were released (Popheart Live EP) but not a full concert.
05. Songs from the 12/03/1997 Mexico City concert were released, some in very limited distribution, but once again no full concert release.
06. A number of songs from the 12/05/2000 Irving Plaza performances in New York City were released, but no full concert.
07. The Elevation DVD of the 06/05/2001 concert in Boston is also incomplete. Also, a small number of the songs have been released on CD, but in limited distribution and not the entire concert.

U2 definitely has complete live concert performances of which it can be proud. It's time to consider releasing one or more of them for the fans who have supported them over the years. The Slane Castle performance seems to be a performance deserving a complete CD and DVD release.

Thanks.

U2 are high - higher than the sun, in particular on stage.
Everyone who has had the chance to see them live will testify the incredible power of that one moment when they suddenly appear and start sending out their musical message of incomparable brightness: Achtung, it's U2.
Very often, I cannot bear the idea of having to wait for this unique experience without knowing when U2 are coming back. In such moments, their CDs and Videos may help although they are not able to really capture this moment.
Having seen Live at Slane Castle on British television, I now know that this concert is as close as it gets to capture the U2-moment.

Have always been a fan of U2, and from many years ago. I'm just rediscovering them now after a long absence, during which I went through the hardest time in my life, loosing my father to cancer. He was only 66 when he died, and had so much to look forward to in his retirement. The devastation of this, was further compounded by the fallout within my family. Life after many years is beginning to get back to some sense of normalacy. When I listen to any album from my U2 collection, I'm immediately brought back to a happier, more optimistic time in my life, and my youth. I find this to be wonderfully sustaining. The courage to get on with one's life is helped so much by these deeply personal, and meaningful possions, such as my U2 albums. I thank you for showing me thelight at the end of the tunnel.

Another thing to have this on dvd is that U2 dosen't have too many live shows on VHS or DVD like other bands of Mettalica Dave Matthews band or the sad but true INSYNC, AND we are talking about the greatest band TO EVER PLAY in the WHOLE DAMN LAND U2. SO DAMMIT RELEASE A DVD OR ill just have to buy more damn bootlegs on cd. THANK U

U2, estimada dirección,

actualmente el nuevo video de la actuación en Slane Castle (1 sept de 2001) se esta emitiendo por television en todo el mundo. Este especial de 50 minutos contiene 9 fantásticas versiones en directo. Localizado en la espectacular atmósfera de Slane Castle y rematado con una multitud de seguidores entusiasmados, es de veras una experiencia especial para cualquier espectador de televisión.

Sin embargo miles de seguidores de U2 de todo el mundo siguen preguntando la misma cuestión "¿Por qué no puedo ver más?" "¿Por qué no lanzar otro CD en directo?" y "¿Por qué no publicar el concierto completo en DVD?"

En contraste con la mayoría de las otras bandas, U2 nunca ha ido tan lejos publicando un concierto completo en CD o DVD. ¿Por qué no? U2 son la banda en directo más grande del mundo y es momento de demostrárselo al público con un documento memorable.

Por lo tanto pedimos amablemente a U2, a la dirección y a la compañía discografica que publique este impresionante concierto de Slane en CD o DVD. Con mi firma y con las razones antes expuestas pido su publicación. Nosotros, los seguidores de U2 de todo el mundo, nos lo merecemos!

Razones para publicar el concierto de Slane Castle:

U2 nunca ha publicado un concierto completo en CD. "Under a blood red sky" era una mezcla de 3 tomas diferentes.

Incluso el video ZooTV de Sydney carece de una cancion ('Tryin' to throw your arms around the world'). Falta una edición en CD o DVD ganz.

México se publico en CD para los suscriptores de Propaganda. Y una vez más solo es medio concierto. ¿Qué hay acerca de la publicación en DVD?

Slane fue grabado en la más alta calidad utilizando un equipo fantástico (ejemplo SpinCam).

El fantástico concierto de Boston, el cual se editó en DVD, no esta completo.

10 November 2002 - germany

Reasons for a release of the Slane Castle Concert:

U2 have not yet released one complete live-show on cd. Even "Under a blood red sky" was cut together from 3 different shows
Even the ZooTV video from Sydney lacks one song ('Tryin' to throw your arms around the world') - a decent release on CD or DVD is lacking completely.

Mexico was only released to a handful of fans - and again it was only half the show. And what about a DVD-release?

Slane was recorded in top quality using fansatic equipment (e.g. SpinCams) - the material is existing.

Even the fansatic Boston show, which was released on DVD, is not complete

You have to release the Slane DVD! Us U2 fans out there deserve to see the band at this great concert; a 50 minute t.v. program won't cut it-think about the commercials in between! Please, please.....

I am from Argentina (I am good but other many many people are not passing a good time in my beautiful country), and i have all oficial albums and i think that something is missing to the discography of U2, a double-live album with the complete concert. For me U2 should had released a complete show of every tour, but the time has passed and i'm still waiting. I agree with the petition, U2 FANS DESERVE IT!!

U2, dear management,
currently the new video of the Slane Castle performance (sept. 1, 2001) is screened worldwide on TV. This 50 minute special contains 9 fantastic live versions. Set in the spectacular atmosphere of Slane Castle and crowned with enthusiastic crowd of fans, it is indeed a very special experience for any tv spectator.
Nevertheless thousands of U2 fans worldwide keep asking the same question: "Why don't we get to see more?" "Why not the whole show?" "Why not releasing another Live-CD?" and "Why not releasing the whole concert on DVD?"
In contrast to a lot of other bands, U2 have so far never(!) released a complete concert on CD or DVD. Why not? U2 are the biggest live band in the world - and its time to prove this to the public with a remarkable document.
We therefore kindly ask U2, the management and the record company to release this breathtaking Slane concert on CD and DVD. With my signature and the above stated reasons I ask for a release. We, U2 fans from all over the world, deserve it!

zur Zeit wird weltweit das neue Video über das Slane Konzert vom 1.Sept. 2001 ausgestrahlt. Dieses 50 minütige Special beinhaltet 9 phantastische Live-Versionen. In der atemberaubenden Kulisse des Slane-Castle und dieser begeisterten Menschenmasse wird es zu einem besonderen Erlebnis für den TV-Zuseher.

Doch weltweit stellen sich tausende U2-Fans die Frage: "Warum bekommen wir nicht mehr?" "Warum nicht das ganze Konzert?" "Warum nicht wieder einmal eine Live-CD?" und "Warum wird das Konzert nicht als DVD herausgebracht?"

Im Gegensatz zu vielen anderen Gruppen hat U2 noch nie(!) ein komplettes Konzert auf Audio-CD und DVD veröffentlicht. Warum nicht? U2 ist die grösste LIVE-Band der Welt, es wird Zeit dies der Öffentlichkeit mit einem beeindruckenden Dokument zu beweisen.

Wir bitten U2, das Management, die Plattenfirma, veröffentlicht dieses atemberaubende Konzert von Slane auf einer Audio-CD und auf DVD. Mit meiner Unterschrift und den unten genannten Gründen für einen Release bitten wir darum! Wir U2-Fans haben es uns verdient!

Gründe für einen Release des U2 Slane Konzertes 2001:

- * U2 hat noch nie ein komplettes Live-Konzert auf Audio-CD veröffentlicht. Auch 'Under a blood red sky' ist ein Zusammenschnitt aus 3 Konzerten.
- * Selbst beim ZooTV Video aus Sidney fehlt ein Song ('Tryin' to throw your arms around the world') - ein ordentlicher Release auf Audio-CD & DVD fehlt ganz.
- * Mexico wurde nur für eine Handvoll Fans ausgegeben - auch hier wieder nur die Hälfte des Konzertes. DVD-Release?
- * Slane wurde von u.a. mit der Unterstützung von SpinCam in hervorragender Qualität aufgezeichnet - das Material ist also vorhanden.
- * Auch der hervorragende Zusammenschnitt von Boston, welcher auch auf DVD herausgegeben wurde, ist nicht vollständig.

U2, estimada dirección,
actualmente el nuevo video de la actuación en Slane Castle (1 sept de 2001) se esta emitiendo por television en todo el mundo. Este especial de 50 minutos contiene 9 fantásticas versiones en directo. Localizado en la espectacular atmósfera de Slane Castle y rematado con una multitud de seguidores entusiasmados, es de veras una experiencia especial para cualquier espectador de televisión.
Sin embargo miles de seguidores de U2 de todo el mundo siguen preguntando la misma cuestión "¿Por qué no puedo ver más?" "¿Por qué no lanzar otro CD en directo?" y "¿Por qué no publicar el concierto completo en DVD?"
En contraste con la mayoría de las otras bandas, U2 nunca ha ido tan lejos publicando un concierto completo en CD o DVD. ¿Por qué no? U2 son la banda en directo más grande del mundo y es momento de demostrárselo al público con un documento memorable.
Por lo tanto pedimos amablemente a U2, a la dirección y a la compañía discografica que publique este impresionante concierto de Slane en CD o DVD. Con mi firma y con las razones antes expuestas pido su publicación. Nosotros, los seguidores de U2 de todo el mundo, nos lo merecemos!
Razones para publicar el concierto de Slane Castle:
U2 nunca ha publicado un concierto completo en CD. "Under a blood red sky" era una mezcla de 3 tomas diferentes.
Incluso el video ZooTV de Sydney carece de una cancion ('Tryin' to throw your arms around the world'). Falta una edición en CD o DVD ganz.
México se publico en CD para los suscriptores de Propaganda. Y una vez más solo es medio concierto. ¿Qué hay acerca de la publicación en DVD?
Slane fue grabado en la más alta calidad utilizando un equipo fantástico (ejemplo SpinCam).
El fantástico concierto de Boston, el cual se editó en DVD, no esta completo.
Sin mas, Saludos.

U2 nunca ha publicado un concierto completo en CD. "Under a blood red sky" era una mezcla de 3 tomas diferentes. Incluso el vídeo ZooTV de Sydney carece de una canción ('Tryin' to throw your arms around the world'). Falta una edición en CD o DVD ganz.

México se publicó en CD para los suscriptores de Propaganda. Y una vez más solo es medio concierto. ¿Qué hay acerca de la publicación en DVD?

Slane fue grabado en la más alta calidad utilizando un equipo fantástico (ejemplo SpinCam).

U2, estimada dirección, actualmente el nuevo video de la actuación en Slane Castle (1 sept de 2001) se esta emitiendo por television en todo el mundo. Este especial de 50 minutos contiene 9 fantásticas versiones en directo. Localizado en la espectacular atmósfera de Slane Castle y rematado con una multitud de seguidores entusiasmados, es de veras una experiencia especial para cualquier espectador de television.

Sin embargo miles de seguidores de U2 de todo el mundo siguen preguntando la misma cuestión "¿Por qué no puedo ver más?" "¿Por qué no lanzar otro CD en directo?" y "¿Por qué no publicar el concierto completo en DVD?"

En contraste con la mayoría de las otras bandas, U2 nunca ha ido tan lejos publicando un concierto completo en CD o DVD. ¿Por qué no? U2 son la banda en directo más grande del mundo y es momento de demostrárselo al público con un documento memorable.

Por lo tanto pedimos amablemente a U2, a la dirección y a la compañía discografica que publique este impresionante concierto de Slane en CD o DVD. Con mi firma y con las razones antes expuestas pido su publicación. Nosotros, los seguidores de U2 de todo el mundo, nos lo merecemos!

Razones para publicar el concierto de Slane Castle:

U2 nunca ha publicado un concierto completo en CD. "Under a blood red sky" era una mezcla de 3 tomas diferentes.

Incluso el video ZooTV de Sydney carece de una cancion ('Tryin' to throw your arms around the world'). Falta una edición en CD o DVD ganz.

México se publico en CD para los suscriptores de Propaganda. Y una vez más solo es medio concierto. ¿Qué hay acerca de la publicación en DVD?

Slane fue grabado en la más alta calidad utilizando un equipo fantástico (ejemplo SpinCam).

U2, liebes Management,

zur Zeit wird weltweit das neue Video über das Slane Konzert vom 1. Sept. 2001 ausgestrahlt. Dieses 50 minütige Special beinhaltet 9 phantastische Live-Versionen. In der atemberaubenden Kulisse des Slane-Castle und dieser begeisterten Menschenmasse wird es zu einem besonderen Erlebnis für den TV-Zuseher.

Doch weltweit stellen sich tausende U2-Fans die Frage: "Warum bekommen wir nicht mehr?" "Warum nicht das ganze Konzert?" "Warum nicht wieder einmal eine Live-CD?" und "Warum wird das Konzert nicht als DVD herausgebracht?"

Im Gegensatz zu vielen anderen Gruppen hat U2 noch nie(!) ein komplettes Konzert auf Audio-CD und DVD veröffentlicht. Warum nicht? U2 ist die grösste LIVE-Band der Welt, es wird Zeit dies der Öffentlichkeit mit einem beeindruckenden Dokument zu beweisen.

Wir bitten U2, das Management, die Plattenfirma, veröffentlicht dieses atemberaubende Konzert von Slane auf einer Audio-CD und auf DVD. Mit meiner Unterschrift und den unten genannten Gründen für einen Release bitten wir darum! Wir U2-Fans haben es uns verdient!

Gründe für einen Release des U2 Slane Konzertes 2001:

- * U2 hat noch nie ein komplettes Live-Konzert auf Audio-CD veröffentlicht. Auch 'Under a blood red sky' ist ein Zusammenschnitt aus 3 Konzerten.
- * Selbst beim ZooTV Video aus Sidney fehlt ein Song ('Tryin' to throw your arms around the world') - ein ordentlicher Release auf Audio-CD & DVD fehlt ganz.
- * Mexico wurde nur für eine Handvoll Fans ausgegeben - auch hier wieder nur die Hälfte des Konzertes. DVD-Release?
- * Slane wurde von u.a. mit der Unterstützung von SpinCam in hervorragender Qualität aufgezeichnet - das Material ist also vorhanden.
- * Auch der hervorragende Zusammenschnitt von Boston, welcher auch auf DVD herausgegeben wurde, ist nicht vollständig.

U2, liebes Management,

zur Zeit wird weltweit das neue Video über das Slane Konzert vom 1.Sept. 2001 ausgestrahlt. Dieses 50 minütige Special beinhaltet 9 phantastische Live-Versionen. In der atemberaubenden Kulisse des Slane-Castle und dieser begeisterten Menschenmasse wird es zu einem besonderen Erlebnis für den TV-Zuseher.

Doch weltweit stellen sich tausende U2-Fans die Frage: "Warum bekommen wir nicht mehr?" "Warum nicht das ganze Konzert?" "Warum nicht wieder einmal eine Live-CD?" und "Warum wird das Konzert nicht als DVD herausgebracht?"

Im Gegensatz zu vielen anderen Gruppen hat U2 noch nie(!) ein komplettes Konzert auf Audio-CD und DVD veröffentlicht. Warum nicht? U2 ist die grösste LIVE-Band der Welt, es wird Zeit dies der Öffentlichkeit mit einem beeindruckenden Dokument zu beweisen.

Wir bitten U2, das Management, die Plattenfirma, veröffentlicht dieses atemberaubende Konzert von Slane auf einer Audio-CD und auf DVD. Mit meiner Unterschrift und den unten genannten Gründen für einen Release bitten wir darum! Wir U2-Fans haben es uns verdient!

Gründe für einen Release des U2 Slane Konzertes 2001:

- * U2 hat noch nie ein komplettes Live-Konzert auf Audio-CD veröffentlicht. Auch 'Under a blood red sky' ist ein Zusammenschnitt aus 3 Konzerten.
- * Selbst beim ZooTV Video aus Sidney fehlt ein Song ('Tryin' to throw your arms around the world') - ein ordentlicher Release auf Audio-CD & DVD fehlt ganz.
- * Mexico wurde nur für eine Handvoll Fans ausgegeben - auch hier wieder nur die Hälfte des Konzertes. DVD-Release?
- * Slane wurde von u.a. mit der Unterstützung von SpinCam in hervorragender Qualität aufgezeichnet - das Material ist also vorhanden.
- * Auch der hervorragende Zusammenschnitt von Boston, welcher auch auf DVD herausgegeben wurde, ist nicht vollständig.

On behalf of all Canadian U2 fans, please release the greatest show performed by the greatest band in the world. SLANE ON DVD!!!!!!

6 November 2002 - Toronto, Canada

Patrick Musial | drsax-AT-t-online-DOT-de

Dear U2 Management,

I agree with most of the above statements, except that I don't think that we, the fans, deserve any specific release...it's up to the band what to release and what not, I think. But I do think that a band as great as U2 with songs as great as U2's deserve the best possible display of their great work. And from all that I've heard, the two Slane shows where magic and this magic has been captured in the tv-special. So I think the band would benefit as much from it as the fans, as it would show the world the "magic of U2" and, from all that I've heard so far, maybe better than any U2-video-release before. So please release it (and avoid bootlegging!). Thank you and keep on your good work!

Slane as DVD would be great. I suggest the release as a somewhat bonus-thing (propaganda or DVD-box-set with popmart an zoo-tv) because a normal release of a second DVD or cd-live-album from one tour would be interpreted negatively by a lot of people and media as a sell out or ripp.
But release it in some way - maybe with bonus tracks like Sweetest Thing!

I'm not one for begging, but Slane was the best concert I have ever seen. To release it on DVD complete would make it the most sought after concert footage ever. If there were 80,000 fans there for both gigs, then there will be a shitload of DVD's sold. So if you are reading this Mr. Big Executive who loves money, get the ball rolling and release the DVD.

SLANE-Veröffentlichung ist eigentlich PFLICHT und sollte gar nicht diskutiert werden. Mir wäre allerdings der 1.Tag lieber, da dies der echte "nach 20 Jahren Gig" war. Ich hatte das Glück live dabei zu sein und habe vergleichbares noch nie (trotz vieler anderer U2 Shows seit 85) gesehen. Gigantische Setlist mit Sort of Homecoming, Thin Lizzy Cover und einem unglaublich emotionalen Bono! Also: von mir aus veröffentlicht alle U2-Shows, aber Slane (1 oder 2) sollte für eine Band aus Dublin eine Selbstverständlichkeit sein. "Feed the world!"

Darum veröffentlichen:

* U2 hat noch nie ein komplettes Live-Konzert auf Audio-CD veröffentlicht. Auch 'Under a blood red sky' ist ein Zusammenschnitt aus 3 Konzerten.

* Selbst beim ZooTV Video aus Sidney fehlt ein Song ('Tryin' to throw your arms around the world') - ein ordentlicher Release auf Audio-CD & DVD fehlt ganz.

* Mexico wurde nur für eine Handvoll Fans ausgegeben - auch hier wieder nur die Hälfte des Konzertes. DVD-Release?

* Slane wurde von u.a. mit der Unterstützung von SpinCam in hervorragender Qualität aufgezeichnet - das Material ist also vorhanden.

* Auch der hervorragende Zusammenschnitt von Boston, welcher auch auf DVD herausgegeben wurde, ist nicht vollständig.

Yes please!!!

Not only a wise decision financially, but also one for the many fans who could either not make it to Ireland, not get tickets or indeed did not get any tickets for the Elevation shows.

Boston does lack Mysterious Ways (the dancing screens) and One, so it does not give the complete feeling. By the way, Popmart DVD would be great and I still would like to see TooTV, which I missed on tour. Both multimedia spectacles lend themselves for a DVD release.

But if I can only have one - I'd take Slane.

Come on, do it for the fans.

U2 are the greatest Live-Band on earth, but they never released a real Live-Album. "Under a bloodred Sky" was only a mini-album, "Rattle & Hum" had only a view Live-Pieces, so why don ´t you release the Slane Castle-Concert? It was a really historical concert and was recorded in excellent quality.

On veut SLANE !!! Je pense qu'un DVD LIVE et un CD LIVE sont indispensables à un groupe comme U2 ! De plus pour les fans,cela serait un très beau cadeau.Enfin pour toucher d'autres personnes, quoi de meilleur qu'un live avec la prestation de U2, expert en la matière plutôt qu'un Best of à moitié réussi ? Voilà, je pense qu'il faut sortir SLANE en DVD et en Double CD, et en entier ! PS: vous avez pas un stage à UNIVERSAL MUSIC, assistant Chef de Produit U2 SLANE DVD ?

J'exprime ma voix pour la petition concernant le concert de slane en integralité.
on merite bien ça depuis 20 ans qu'on les suit, sans avoir eu le moindre concert en integralité a ce mettre sous la dent!

Par contre un dvd sur sydney version integrale serait le bienvenue surtout qu'il est deja sorti en laser disc a l'epoque avec une chanson en moins qui etait d'ailleurs sur la vhs.
A bon entendeur...

Enfin bon on continu de rêver car tant qu'il ne déciderons pas de faire quoi que ce soit, on peut toujours continuer à revendiquer.

Le meilleur concert pour la posterité :)

Pourquoi avoir mis en vente un show relativement aseptisé, ultra monté trituré, et surtout incomplet.

Donc la qualité technique (Du DVD), n'est pas a la hauteur des moyens disponibles, 4/3 au lieu de 16/9, absence de DTS, et surtout bonus plus ou moins ininteressant.

Alors vous pouviez sortir un show epoustouflants, techniquement et emotionnellement impressionnant.

Same player, play again.

Voila l'occasion de reparer les erreurs du passé, SLANECastle (09/01/01 de preference)
ON DVD !!!!

Je serais ravi si le management de u2 pouvait autoriser le groupe à sortir un DVD de l'Elevation Tour à Slane Castle, parce que je crois que c'est un des concert les plus émouvant de la tournée et aussi parce que Bono et le groupe ont chantés des chansons qu'ils n'ont chanté nul part ailleurs, étant donné quelles étaient dédiés pour la mort du père de Bono./ Merci de réaliser cela pour les fans du plus grand groupe de rock au monde

le vote utile

il est important qu'à l'instar d'autres groupes de renommée internationale, U2 consacre un album CD ou un DVD à un concert intégral. U2 est un groupe de scène et tous ceux qui, depuis plus de 20 ans, ont pu assister à une de leurs prestations savent à quel point elle forme un tout. Saucissonner, tronquer une performance pour n'en garder que les extraits les plus "efficaces" ne fonctionne pas avec ce groupe. Si les bootlegs de U2 sont autant recherchés, c'est aussi par cette volonté de retrouver les performances live inaltérées, même avec leurs imperfections. Donnez nous la spontanéité de la dernière tournée, un moment unique, pas formaté et pas reproductible d'un soir à l'autre, même si la setlist reste globalement la même. Ce produit audio ou video ne ferait pas doublon avec le dvd de Boston, car ses qualités seraient autres. Pensez à nous, nous suivrons sans hésiter une initiative de ce genre, qui rendrait hommage à ce qu'a toujours été U2 sur scène."

U2 live from Slane Castle Please !!!!!!!!

Enfin un concert complet ?
He oui, U2 a beau être le plus grand groupe rock de ces décennies, ses producteurs ne sont pas capable de nous fournir un \live\" digne de ce nom. On pourrait également rêver d'un \"vra\" DVD... avec tous les avantages que ce dernier peut avoir sur la vidéo...

Slane Castle
Il faut absolument que Universal Music sorte le Dvd du concert de Slane Castle car je suis une fan de U2 et j'étais au concert. C'est un des plus beaux concerts que je n'ai jamais vu d'eux. Pour moi, j'aimerais retrouver un peu la magie de ce concert et pour les absents il est important qu'ils puissent vibrer devant leur poste de TV. Merci d'avance

De beaux souvenirs
C'est super que maintenant les musiciens sortent des tonnes de DVD. Ça fait de très bons souvenirs. Ce concert est mémorable et il devrait être en DVD, il est même plus important que celui de Boston parce qu'il a été filmé en Irlande et ça donne une dynamique encore plus forte au concert.

*IMPORTANT: Les fans aiment voir les concert AU COMPLET.
SVP, ne pas couper des chansons importantes comme Mysterious Ways, Pride et One!

I want my Slane castle en DVD
Le concert de Slane DOIT sortir en DVD. C'est le concert majeur de la tournée Elevation Tour. Le concert de Boston a été coupé. Il faut donc un autre concert mais dans son intégralité. De plus, jamais U2 n'a sorti d'album live. Il serait grand temps que cela se fasse pour l'Elevation tour et par la même occasion, pour le ZOO TV car c'est ma tournée préférée de U2 et il n'existe aucun concert officiel en CD. U2 est le plus grand groupe sur scène et pourtant les retranscriptions CD live sont rares. Dommage. Vivement Slane en DVD pour me faire mentir...

U2 est vraiment le plus grand groupe du monde mais je suis déçu de n'avoir jamais eu de CD live officiel et en intégralité !! Avec le concert de Slane Castle c'est l'occasion à ne pas rater. Slane est le plus grand concert du Elevation tour et il n'est ni en CD, ni en DVD. Pourquoi n'en diffusé que 50min sur une chaîne cryptée alors qu'il pourrait râvir des millions de fans. Slane castle en DVD et CD se serait génial. En fait, il y a très peu de concert de U2 de disponible malgré les 25 ans du groupe. De plus, on ne voit pas assez de concert de U2 à la TV. Sortez ce DVD

Fan depuis longtemps de ce fabuleux groupe qu'est U2, et notamment sur scène, je suis dans l'attente d'un CD live digne de ce nom. Il est clair que U2 est l'un des plus grands groupes sur scène. Et il est vrai que c'est aussi l'un des seuls groupes à ne sortir aucun CD en live... Alors espérons que cette pétition les pousse à satisfaire leur public !

Original Slane castle DVD
Le concert original de Slane Castle du 25/08/2001 doit être impérativement commercialisé en format DVD et non celui du 01/09/2001 (le bis) le vrai festival est le premier concert.

ok pour boston quand on a vécu bercy et que l'on veut revivre la magie de ce moment de rêve.mais si slane castle est si extraordinaire,- ce dont je ne doute pas vu le niveau de nos 4 fabuleux irlandais et le fait qu'ils se retrouvaient sur leurs terres-pourquoi nous priver de ce concert.c'est avec ce genre de documents que la magie au sens vrai du terme peut perdurer et \contaminer\" de nouveaux fans.pleaaaaaaaaaaaaaaaaaaaaase

Je suis tout a fait d'accord, c'est tres frustrant de la part de u2 de voir que leur live ne soient jamais au complet. J'espere donc tres sincerement que le concert de slane soit le plus rapidement possible dispo en DVD, de plus ce serait extra si; comme cela avait été prévu au mois de mars dernier selon toutes vraisemblances que les 2 lives précédents zoo tv sydney et le popmart de mexico sortent eux aussi en DVD. Pour les fans, cela s'IMPOSE !!!

Un concert fabuleux, qui doit sortir en DVD !

J'ai pu voir aujourd'hui ce concert diffusé à la télévision et j'ai été fasciné par l'ambiance et le cadre de ce concert. Une telle communion avec ce groupe n'est possible qu'à Dublin. J'ai été très surpris de découvrir que plusieurs titres avaient été "oubliés" par la diffusion, et encore plus par le fait que ce concert n'est pas possible en DVD. J'espère vraiment que cette pétition aboutira. Bravo pour cette initiative."

March 2002, Point Depot, Meteor Irish Music Awards. I was there and I remember Larry's speech (believe me, he did a speech !!!). you thanked again the crowd for the 2 gigs in Slane, you seemed to be very touched by the atmosphere during the concerts... So I'm sure you all can realize what a great souvenir it was for all the fans...

The dvd of the mythical Slane2 concert, should be a prize for all fans in the world, that like me, for any reason (for example, i had not enough money), in that magical night were not there for to see "our boys". It wasn't a simple anniversary; the few scenes that i have seen, speaks about all the charm that only U2 could trasmit, those emotion, that only them can give us. Should be a big injustice, if that fantastic experience remain an exclusiveness for few lucky people. And than, i'm sure that could be a good buisness! The Dvd should be sold out immediatly! Think about it, and i'm sure that you will be in agreement with me!!! Excuse me for my bad english; i hope that the sense of my message could be clear. WE believe in you. Best wishes. Daniele Stefani

U2, Principle Management, Island, Universal attualmente il nuovo video della performance allo Slane Castle(1°settembre,2001) è in onda sulle TV di tutto il mondo. Questo special di 50 minuti contiene 9 fantastiche versioni live. Nella spettacolare cornice dello Slane Castle, con un pubblico in delirio, traspare una grandiosa atmosfera, forse mai realizzata prima durante un concerto degli U2. Uno show davvero speciale per qualsiasi spettatore della TV. Tuttavia migliaia di fans continuano a porsi la stessa domanda: "Perchè non possiamo ottenere qualcosa in più?Perchè non l'intero show?Perchè non rilasciare un CD live?E soprattutto perchè non rilasciare l'intero concerto in DVD?" A contrario di tante altre bands, gli U2 non hanno mai rilasciato un concerto completo in CD o DVD. Perché no? Gli U2 sono la più grande band al mondo, ed è giunta l'ora di dimostrarlo al grande pubblico sfruttano questa grande opportunità. Con le nostre firme, noi fans degli U2 di tutto il mondo, per le ragioni sottoelencate chiediamo gentilmente, agli U2, al loro management ed alla casa discografica di rilasciare questo emozionante show allo Slane Castle, su CD e DVD. Motivi per la pubblicazione del concerto dello Slane Castle: Gli U2 non hanno ancora rilasciato un cd live completo. Anche "Under a Blood Red Sky" fù pubblicato unendo 3 differenti concerti. > Anche lo ZOOTOV video manca di una canzone per completare il concerto completo. E tutt'oggi non esiste una versione in DVD e CD. Il cd live dello show di Mexico City fu rilasciato soltanto per pochi fans iscritti a Propaganda, per di più incompleto. E non esiste ancora la versione in DVD. Slane è stato registrato con una qualità sublime, utilizzando un equipaggiamento fantastico (per esempio le Spins Cams). Anche lo show di Boston, che è stato rilasciato su DVD, è incompleto, e con una setlist stravolta

It's time that a great live band like U2 release a new live album. "Under a blood red sky" was a good live-album, but it was 18 years ago! It seems that the Slane concerts were the best performances of the Elevation Tour so it would be great if U2 release a double cd with one of them. Thanks

The Slane Castle show (the first one) was the reason for my first trip to Ireland, and it was the most amazing concert experience of my life. I know I will look back on that time as one of the pure moments in life. It would mean a great deal to be able to relive it through the release of a full concert DVD. Thanks, Fredrik

Gentile Management degli u2, non sono nessuno per imporvi una scelta, ma aggiungo la mia voce al coro di chi vi chiede di pubblicare il concerto di Slane in Dvd. Per chi come me cerca di derivare una filosofia di vita dalle canzoni degli u2, quel concerto sarebbe l'ultima parola - e tutta la risposta. Grazie, Matteo.

E' dal vivo che una band dimostra il proprio valore e penso che gli U2 propongano una delle migliori espressioni di concerto rock. Il concerto di Slane è un condensato di tecnica, passione e grande musica di un gruppo che suona a casa sua e riesce a mantenere atmosfera e contatto davanti a ottantamila persone. Dopo avere assistito a una decina di concerti degli U2 dagli anni ottanta ad oggi sarebbe bello avere un prodotto del genere nella propria collezione. Grazie

ciò che ho visto in tv (slane castel sept. 01 2002 in Special "my compilation"), è per me impressionante. E' una sequenza di immagini strepitose, primi piani da brividi, il mare di folla che c'era, ma quanta "c...." di gente c'era? E a pensare che potevo esserci anch'io! Davvero peccato! quindi se quelle immagini potessero essere nelle mani di ogni fans degli u2, sarebbe un regalo di natale stupendo per tutti noi che in un certo senso viviamo anche per loro! Inoltre sono immagini che forse non ho mai visto, se non considero quelle di rattle and hum, che comunque era in versione film cinema, e quelle che riguardano il concerto di capodanno 1990, mai trasmesse, ma so che fù un concerto inimitabile. Quindi spero che il nostro sogno diventi realta! Michele

In my opinion Boston is a good DVD, good performance...but..don t forget about us! poor little Europeans! There are plenty more shows that were better than Boston, such as in Slane Castle!! And some of these shows are not in USA! We want OUR EUROPEAN show! Where Bono is in tip top shape...where he runs everywhere!! U2 tours are much more longer in america, and still we don t have on DVD a european show but an american one!! I want to see U2 in Ireland!

It's an fantastic concert. The fan deserve listen it and enjoy it in DVD. U2 is the greatest band on earth, and their concerts are absolutely fantastic. I saw they in Santiago(Chile) 1998, and the possibilities they came back are inexistence. Because of that the release the Slane Concert will be great. Good bye and Good luck. Give us slane castle DVD! Dear Bono & C. I have a great passion for your music, your songs and my soul. What you say in your song, often, describe the same feeling, desires and question of my life. We have many differences, but we have also one thing that's the same: the heart . Thank'you because in your song this heart has been good explained! I have been a U2 fan for over 15 years... and I still can't get enough. So All I Want Is You to Elevate My Soul and give us (U2 fans) what we Desire... Slane Castle on DVD. You know your Fly, the One, so stop your Mysterious Ways, and just maybe we can stop Staring At The Sun and being Stuck In A Moment You Can't Get Out Of, and celebrate as if was the Last Night On Earth Until The End Of The World. Please (I'm down on my knees).

U2 is one of the greatest bands of Rock'n Roll history. But they are never as great as when they are playing live. So it's unbelievable that so wonderful live performers have so few FULL concerts DVDs available. Moreover when their performance is as unique and touching and pure as in a magical place like Slane Castle, not releasing it would be a waste, an heresy. That would also disappoint their fans and break their hearts...

After watching the show on Television, I can only relate to what I saw as the greatest moment of rock music ever captured. We often talk of how U2 show can be a religious experience, well this footage fathoms all of that. The band after 20 years of pure magic leave earth and deliver an extra ordinary moment in time which is a treat and fulfillment for soul. The full show has to be released on DVD

I would like that the "slane castle" dvd was edited because I think this video is the best live which U2 has made. Sound is perfect, the quality is also good and over all the songs. I don't know but I reckon that U2 are much more motivated when they play in their town. By this reason I think it could be very positive to edit on "dvd". Nothing more about this. I hope with my request and the rest we were able to get it.

The optimal solution would be a two-dvd set with the Slane show and the Turin show, the only two outdoor shows in the Elevation tour. Come on guys!

U2, Principle Management, Island, Universal attualmente il nuovo video della performance allo Slane Castle (1° settembre, 2001) è in onda sulle TV di tutto il mondo. Questo special di 50 minuti contiene 9 fantastiche versioni live. Nella spettacolare cornice dello Slane Castle, con un pubblico in delirio, traspare una grandiosa atmosfera, forse mai realizzata prima durante un concerto degli U2. Uno show davvero speciale per qualsiasi spettatore della TV. Tuttavia migliaia di fans continuano a porsi la stessa domanda: "Perché non possiamo ottenere qualcosa in più? Perché non l'intero show? Perché non rilasciare un CD live? E soprattutto perché non rilasciare l'intero concerto in DVD?" A contrario di tante altre bands, gli U2 non hanno mai rilasciato un concerto completo in CD o DVD. Perché no? Gli U2 sono la più grande band al mondo, ed è giunta l'ora di dimostrarlo al grande pubblico sfruttando questa grande opportunità. Con le nostre firme, noi fans degli U2 di tutto il mondo, per le ragioni sottoelencate chiediamo gentilmente, agli U2, al loro management ed alla casa discografica di rilasciare questo emozionante show allo Slane Castle, su CD e DVD. Motivi per la pubblicazione del concerto dello Slane Castle: Gli U2 non hanno ancora rilasciato un cd live completo. Anche "Under a Blood Red Sky" fu pubblicato unendo 3 differenti concerti. > Anche lo ZOOTV video manca di una canzone per completare il concerto completo. E tutt'oggi non esiste una versione in DVD e CD. Il cd live dello show di Mexico City fu rilasciato soltanto per pochi fans iscritti a Propaganda, per di più incompleto. E non esiste ancora la versione in DVD. Slane è stato registrato con una qualità sublime, utilizzando un equipaggiamento fantastico (per esempio le Spins Cams). Anche lo show di Boston, che è stato rilasciato su DVD, è incompleto, e con una setlist stravolta.
